

HAF®

GLOBAL PLUS

The most complete product on which to base your intelligent fertilization program through the use of liquid fertilization.

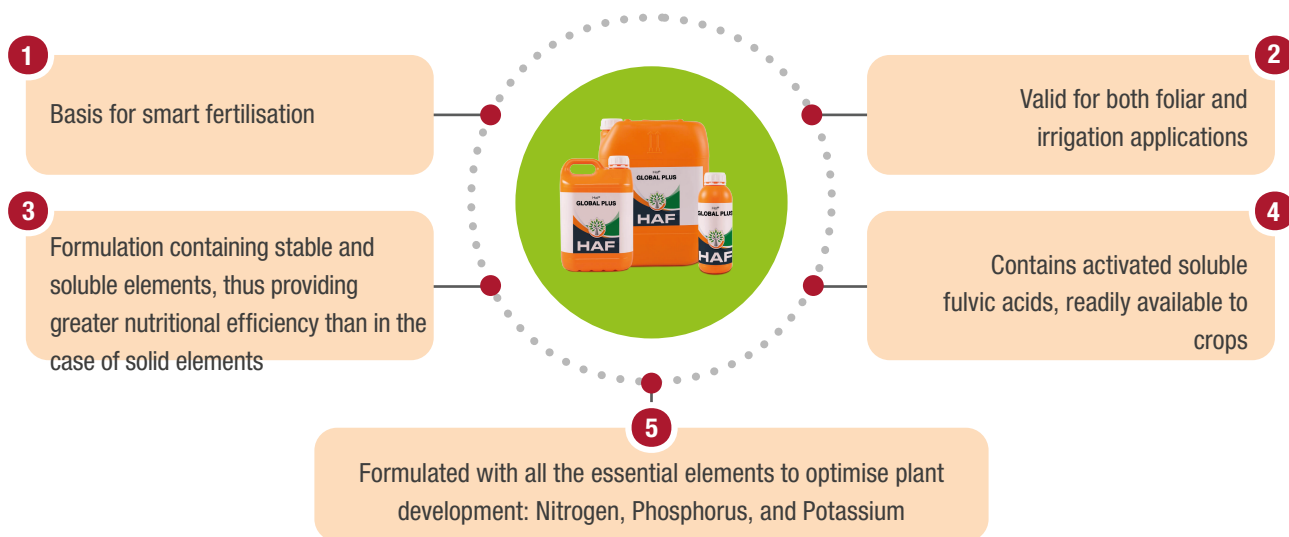

HAF™
HISPANO-AMERICANA
DE FERTILIZANTES

Haf[®] GLOBAL PLUS is a liquid organo-mineral fertiliser with a high NPK concentration and a combo of essential microelements designed to offer your crops complete and balanced nutrition. In line with the European Commission's Farm to Fork strategy, it allows, among others, to:

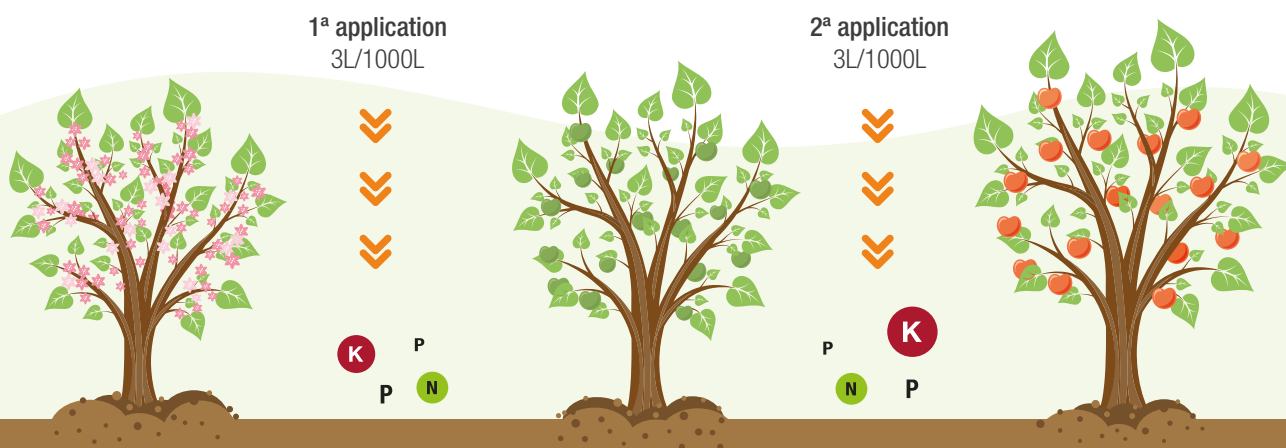

- ✓ Optimise the use of fertilisers and water resources
- ✓ Ensure that all the nutrition provided is used by the crop
- ✓ Optimise dosages
- ✓ Reduce costs
